Distribution License

There is one last step: In order for DSpace to reproduce, translate and distribute your submission worldwide, you must agree to the following terms.

Grant the standard distribution license by selecting ‘I Grant the License’, and then click ‘Complete Submission’.

Non-Exclusive Deposit License

In order for the UB Institutional Repository (UBIR) to reproduce, translate and distribute your submission worldwide your agreement to the following terms is necessary.

Please take a moment to read the terms of this license.

By clicking through this license, you (the author(s) or copyright owner(s)) grants to SUNY at Buffalo (UB) the non-exclusive right to reproduce, translate (as defined below), and/or distribute your submission (including the abstract) worldwide in electronic format.

You agree that UB may translate the submission to any medium or format for the purpose of preservation.

You also agree that UB may keep more than one copy of this submission for purposes of security, back-up, and preservation.

You represent that the submission is your original work, and/or that you have the right to grant the rights contained in this license. You also represent that your submission does not, to the best of your knowledge, infringe upon anyone’s copyright.

If the submission contains material for which you do not hold copyright, you represent that you have obtained the unrestricted permission of the copyright owner to grant UB the rights required by this license, and that such third-party owned material is clearly identified and acknowledged within the text or content of the submission.

IF THE SUBMISSION IS BASED UPON WORK THAT HAS BEEN SPONSORED OR SUPPORTED BY AN AGENCY OR ORGANIZATION OTHER THAN UB, YOU REPRESENT THAT YOU HAVE FULFILLED ANY RIGHT OF REVIEW OR OTHER OBLIGATIONS REQUIRED BY SUCH CONTRACT OR AGREEMENT.

UB will not make any alteration, other than as allowed by this license, to your submission.

If you have questions regarding this license please contact the system administrators.

Understand the Internet has much clear text. Everything is logged in multiple places. Anything can be backed-up, and much of it is. It is easier to log and store everything than to do so with not-everything. There is no way to really insure privacy on the Internet.

PGP - Pretty Good Privacy
GPG
OpenPGP
Symantec Drive Encryption (formerly PGP Whole Disk Encryption)
Transparent drive encryption for laptops, desktops and removable media

Symantec Drive Encryption provides organizations with complete, transparent drive encryption for all data (user files, swap files, system files, hidden files, etc.) on laptops, desktops and removable media. This full disk encryption software protects data from unauthorized access, providing strong security for intellectual property, customer and partner data. Protected systems can be centrally managed by Symantec Encryption Management Server which simplifies deployment, policy creation, distribution and reporting.

One year protection starting at:
$110.00

Symantec Desktop Email Encryption (formerly PGP Desktop Email)
Email encryption immediately from users’ desktop and laptop computers

Symantec Desktop Email Encryption automatically encrypts email as it is sent on desktops and laptops, without affecting the end-user email experience. Symantec Desktop Email Encryption operates as a proxy, supports the two global email encryption standards – OpenPGP and S/MIME – and automatically discovers keys and certificates as required. Additionally, flexible delivery options allow users to send encrypted email to partners who don’t have their own encryption solutions.

One year protection starting at:
$175.00
